## **Declaration of compliance EUDR – Declaration of due diligence (European Deforestation Regulation)**

The EU Deforestation Regulation (EUDR, Regulation (EU) 2023/1115) aims to ensure that certain raw materials and products made from them do not contribute to deforestation or forest degradation.

Linnemann GmbH hereby confirms that, for the relevant raw materials and products falling within the scope of the EUDR, the necessary due diligence measures have been or are being carried out in accordance with the requirements of the Regulation.

Based on this due diligence assessment, it has been determined that there is no risk, or only a negligible risk, that the raw materials or products in question do not comply with the requirements of Article 3 of Regulation (EU) 2023/1115.

In particular, this means that the raw materials and products in question:

- are deforestation-free,
- have been produced in accordance with the relevant legislation of the country of origin, and
- are covered by a valid due diligence statement.

The declaration applies exclusively to the relevant raw materials and products covered by the Regulation, in particular cattle, cocoa, coffee, oil palm, rubber, soy, and timber, as well as products derived therefrom, as listed in Annex I of the Regulation.

Linnemann GmbH continuously monitors regulatory developments and ensures compliance with the applicable requirements of the EUDR within the European Union.

The Regulation is applied in accordance with the currently valid transition periods:

- as of December 30, 2026, for large and medium-sized enterprises,
- as of June 30, 2027, for micro and small enterprises (where applicable).
